

Town of Oswego Highway Department

Monthly Report – January 22, 2019

- **Highway**

- Rathburn Bridge over CSX railroad near OCWA. Working to get this bridge turned over to the County for Ownership and Maintenance responsibility.
- Thompson Rd bridge has been closed until further notice. Seeking input for possible alternatives to full scale replacement.
- FEMA Damage Description has been agreed upon. Next step will be estimate of costs to repair and/or mitigate.
- BRIDGE NY Webinar discussing awards. Some criteria we probably didn't score well in, that may have hurt us – 1) ROW acquisition 2) SEQER Studies not yet completed 3) Roads not critical to manufacturing, commercial, retail or popular tourist area. 4) Design completion
- Snow season is finally here. Remember there is no parking on Town roads between November 15 – April 15.
- We are still waiting to see if the County Engineer will be assisting us with the Thompson Rd bridge. No word since the beginning of the month.

-

- **BUILDINGS AND GROUNDS**

- **Town Hall Boiler System**

- Boiler #1 found in error @ 2 weeks ago. Hyde Stone could not duplicate the problem or find any issues. Since their visit, boiler has tripped on a daily basis. Hyde -Stone stated they need to 'see it happen' before they can make a repair.

- **SEWER SYSTEMS**

- **Ontario Heights**

- New generator is installed and start up completed with Koehler. Koester has misc. items to complete. Highway Dept. will black top in spring with money held back from both contractors.

- **Sleepy Hollow**

- A similar pump has been installed, bring the number of working beds back to 2. Plans will have to be developed for long term upgrades.
